

# VETERINARY FEES PACKAGE | 2011

FOR THE 2011 STUD SEASON TWEENHILLS STUD WILL HAVE A RESIDENT VETERINARY SURGEON IN THE HIGHLY EXPERIENCED MIKE DAVIES MRCVS.

The fee of £330 (plus VAT) will be charged for all mares, both boarding and visiting, other than those that walk in. (Walk in mares will be billed individually for any work done).

This scheme applies equally to maiden, barren and foaling mares and will cover up to 3 oestrus cycles. It will cover reproduction work only. Owners will be invoiced after the first examination and payment is due within 30 days of the invoice date.

The package will include:-

- Pre breeding follicle scans and post breeding uterine fluid and ovulation checks.
- Cervico-endometrial swabs (but not CEM swabs, EIA or EVA blood tests).
- Hormone drugs such as prostaglandin, oxytocin and Ovuplant. Intra-uterine antibiotic infusions/washouts pre or post breeding.
- Routine Caslicks operations or repairs (but not extensive repair of tears incurred at foaling).
- Pregnancy scans at the stud at 14-16 days, 18-20 days, 26days and 35 days.
- The early enucleation of twins and drugs used in connection with this procedure.

The following and any other non-breeding related veterinary work are not included in the package and will be invoiced separately:-

- Regumate, either pre breeding or to aid the maintenance of pregnancy.
- Sedation, if required.
- Any veterinary work involving the foal at foot such as foaling difficulties, new born foal treatments, ID's and microchips.

If your mare has been through three oestrous cycles and is not in foal we will contact you to discuss the options and costs of further attempts to achieve a pregnancy. Any particular requirements or suggestions you may have regarding the veterinary care for your mare should be communicated to us.
